## Coaching

Implementation partners play an important role in our growth strategy. They have access to different markets, provide sector-specific know-how and are excellent multipliers for COSA. Our partners are trained and certified by our project experts based on an approved training concept. In addition to theoretical trainings, we also train our partners directly in projects. Furthermore, COSA employees with extensive experience support our partners by reviews and by assisting them in projects. Business Process Management (BPM) and Workflow Solutions by COSA - The BPM Experts
